

What is Vevox?

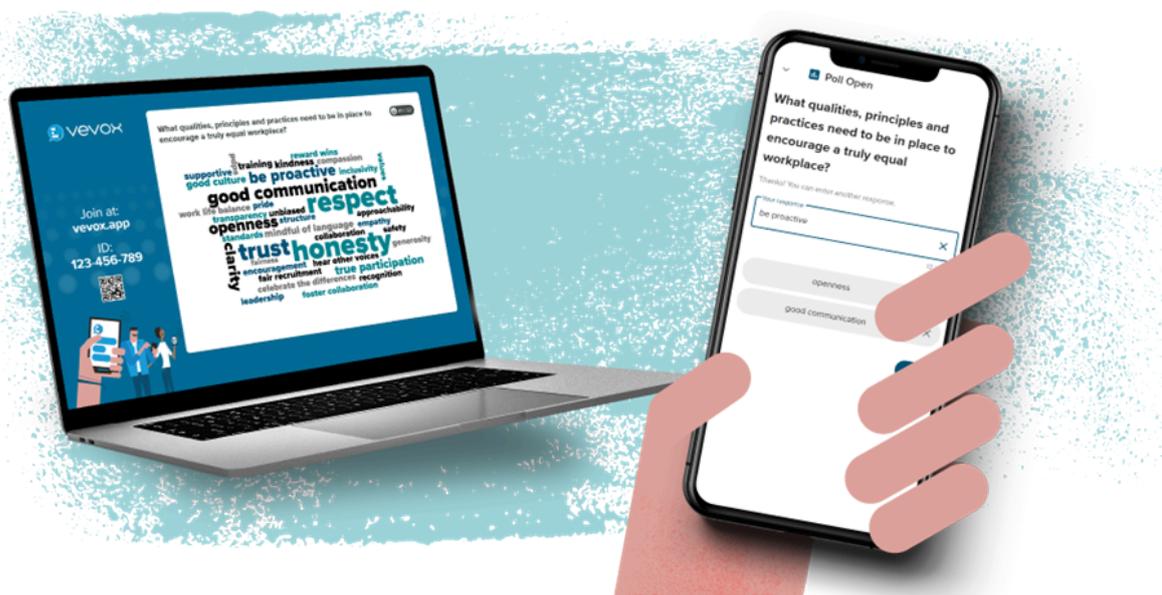

Vevox is an audience engagement tool which enhances online, hybrid, and face-to-face sessions with options for live polling, quizzes, surveys and Q&A. Instructors can present questions, answer options and results through a web browser. Students participate using a web browser, or the Vevox app, on their own device.

Why use Vevox?

Polling your students is a great way to promote active engagement and active learning.

Lecturers using Vevox will be able to:

- Empower students to engage and interact with their lecturers and peers
- Measure learning and understanding synchronously and asynchronously
- Provide more focussed, fun and effective lectures and classes
- Democratise their classes, Q&A and feedback

How do I access it as an instructor?

Go to <https://universityofgalway.vevox.com> and log in.

💡 Learn how to [log in to your account](#) and get started with creating your first poll.
